Where technology and ecology coexist

Nodor is exclusive

Celebrating its fifty-eighth anniversary, the brand reaffirms its position as a leading reference in the world of Mediterranean kitchen design.

Founded in 1968 as the pioneer manufacturer of extractor hoods in Spain, **NODOR**, derived from the compound of the Latin name Non-odor, successfully established itself in the extraction market, and has held a position of leadership for extended periods.

NODOR is a brand historically closely linked to Mediterranean cuisine and kitchen furniture. The brand aligns with the understated and minimalist profile of our products. Our extensive range of cooking appliances and white goods positions us as a clear benchmark in the industry.

NODOR's new products cater to today's individuals, with innovative models that combine ease of use, excellent performance and an elegant aesthetic to make the kitchen an ideal family gathering place.

At **NODOR**, we invest heavily in having the latest technology. Our product range harnesses all its benefits while remembering that the key is to make the complex easy in order to simplify our lives.

Our recent expansion into foreign markets is a crucial part of our business outlook. That's because at **NODOR** we work day after day to open new markets, expanding our horizons, so that – wherever you are – your kitchen is also **NODOR**.

CARING FOR THE ENVIRONMENT

We develop products and manufacturing processes that optimise energy consumption and minimise our environmental impact, by using sustainable materials.

AS EASY AS PRESSING A BUTTON

The chance to harness scientific knowledge is at your fingertips every time you press a simple button on your microwave, oven or induction hob. You don't need to know the laws of physics or be an engineering expert. Cooking can be as simple as pressing the right device and waiting for the process to finish. That's NODOR technology. Because enjoying the pleasure of cooking is compatible with the advances that technology offers.

EXCELLENCE AND INNOVATION

— Efficient innovation —

More than 50 years innovating to make for a better kitchen.

Our company continues to invest in R&D to create and develop technologically perfect products.

— The highest quality standards —

Our proven experience in creation, development and manufacturing is one of the pillars supporting our products' high efficiency, quality and reliability.

— Products designed and made in Spain —

We're proud to be the leading Spanish manufacturer of extractor hoods and all our products offer high levels of quality and guarantees.

We're one of the largest industrial groups in the industry with a global presence.

We're constantly expanding internationally via the creation of subsidiaries and branches. We currently operate in more than 100 countries.

TECHNOLOGY AND DESIGN

Maximum functionality and ease of use are criteria for all our products.

Nodor's commitment is to offer the latest technology and design, combined with high performance, functionality and efficiency.
